

LNTM-25 PRO Wire Feeder

Portable Industrial Wire Feeders

Built upon the tradition and success of the LNTM-25, the new LNTM-25 PRO is designed to be simple, reliable and easy to service. The LNTM-25 PRO is ideal for field construction and fabrication, shipyards, and rental companies.

The MAXTRAC[®] wire drive enhances performance, while the replacement case, and many other upgrade options that can be installed in less than five minutes aid in the serviceability.

The LNTM-25 PRO is available in standard and extra torque models. All models include a gas solenoid and flow meter to run both flux-cored and MIG wires.

The extra torque model features additional torque gearing for reliable feeding of large diameter flux-cored wires.
